(54) Title: NAVIGATING THROUGH WEBSITES AND LIKE INFORMATION SOURCES

(57) Abstract: An interactive/electronic guide (10) for
allowing navigation around a group of electronic docu-
ments, such as on internet or in an intranet site or such
like, the guide being operable automatically to present a
plurality of topic identifiers (14) together with an indica-
tion (16) of the importance of the topics identified within
a site. Each topic (14,16) is user selectable. Selection
of a given topic (14,16) provides access to information
on that topic. Preferably, the guide (10) also provides
information about multiple sites that are potentially re-
lated by content as well as an indication of a degree of
similarity in content between such multiple sites.
